

PRODUCT INFORMATION

Touch

D-CTRL

FEATURES

- Deep UI customization, it can be flexibly customized according to different application scenarios.
- Protocol support: Supports TCP, UDP, WebSocket, OSC, and ModBus protocols.
- Data types: Supports sending and receiving various data types including UTF-8, Hex, Int, Float, Double, etc.
- RS232/485: Supports converting TCP/UDP data to RS-232/RS-485 signals through serial servers for extended applications.
- Multi-control terminal linkage: Capable of supporting multiple control terminals to form a large-scale control platform.
- Network publishing: Allows network connection through the editing terminal, supporting remote publishing to control terminals.
- Timed delay: Can set delayed or timed tasks to automatically switch between different scene modes, enabling smarter control.

Model: D-CTRL

| | | | |
|---------------------|---|--------------------|--------------------------------------|
| Capacitive Touch: | 10-inch All-in-One Machine | Power Supply: | AC 220V 0.8A |
| Communication: | Wired/Wireless Network | Language: | Chinese/English |
| Compatible Devices: | IoT devices and hosts compatible with the above protocols | Customization: | Highly customizable interface layout |
| Version: | RK3566 2+32G | Network Protocols: | TCP, UDP, WebSocket, OSC, ModBus |
| Data Types: | UTF-8, GBK, Hex, Int, Float, Double | Operating System: | Android 11 |
| | | Dimensions: | 240*165*61 |
